A Person Problem Statement Template:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A person experiencing new, non-emergency health symptoms	Understand the potential causes of my symptoms.	Online search results are overwhelming and alarming.	They are filled with complex medical jargon and often highlight rare, worst-case scenarios.	Anxious and more confused than before.
PS-2	A patient (or caregiver) with a new medication.	Understand how to take my medicine correctly and what to expect.	The prescription label is brief and the pharmacy leaflet is long and intimidating.	The information is not written for easy patient comprehension and focuses on legal disclaimers.	Uncertain and worried about missing important details.
